

# THE CONTEMPORARY CRAFT ROAD SHOW

Explore the wonder, beauty and spirit of craft with a presentation on Contemporary Craft. Learn the history of this exceptional art form and the dynamics of craft art today. Discover how today's artists are inspired to bring craft and design to life in a modern way.

Representatives of the Craft Show will discuss the evolution of craft in America, the diversity of craft mediums, and the "how to" of integrating contemporary craft into your home. This show-and-tell presentation includes colorful images, craft objects, and information and insightful stories about various artists.

Let us share the story of craft with your organization and explain how proceeds from the Philadelphia Museum of Art Craft Show support educational programs, exhibitions and acquisitions of art and contemporary craft for the permanent collection of the Philadelphia Museum of Art.
